INDEPENDENT AUDITOR'S REPORT

Commission Members
Cape May County Bridge Commission
Cape May Court House, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Cape May County Bridge Commission (a component unit of the County of Cape May) in the County of Cape May, State of New Jersey, for the year ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Cape May County Bridge Commission (a component unit of the County of Cape May) in the County of Cape May, State of New Jersey, as of December 31, 2018 and 2017, and the changes in financial position and, cash flows for the year and the period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cape May County Bridge Commission's basic financial statements. The Other Supplementary Information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *government auditing Standards*, we have also issued our report dated August 15, 2019 on our consideration of the Cape May County Bridge Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

MANAGEMENT DISCUSSION AND ANALYSIS

This Management Discussion and Analysis ("MD&A") of the Cape May County Bridge Commission ("Commission") provides an introduction to the major activities affecting the operations of the Commission's toll bridges. The MD&A also provides an introduction and overview to the financial performance and statements of the Commission for the years ended December 31, 2018, 2017 and 2016. The information contained in the MD&A should be considered in conjunction with the Commission's financial statements beginning on page 11.

The Commission's basic financial statements comprise two components: 1) proprietary fund basic financial statements, and 2) notes to those basic financial statements, which are essential to a full understanding of the data contained in the basic financial statements. The supplementary information following the basic financial statements and notes thereto contains detailed and separate information pertaining to the commission's operations.

Regarding supplementary information, of particular note the Commission reports a *Schedule of Operating Revenues and Costs Funded by Operating Revenues Compared to Budget* (Schedule 3). That schedule compares the "actual" revenue and expenses to "budget" revenue and expenses, including operating revenues and expenses, and non-operating revenues and expenses. Principal and Interest are reported in these schedules as expenses, and depreciation is not reported as an expense. This is a departure from the Commission's basic financial statements, prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), where only the Interest Expense component of debt service is reported as an expense, and where depreciation is also reported as an expense.

The "Budget versus Actual" statement for the Commission's program is a very important tool for staff, as it measures the Commission's financial and operational performance, particularly as it compares to the Annual Budget as adopted by the Commission's Board and approved by the State of New Jersey, Department of Community Affairs.

For the purpose of the Management Discussion and Analysis, the ensuing discussion will review the official statements of the Cape May County Bridge Commission, those prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") applicable to enterprise or proprietary funds of state and local governments. These are the Commission's basic financial statements discussed above.

The Commission continues to report the allocable share of the PERS net pension liability in accordance with Government Accounting Standard's Board's Statement No. 68 (GASB 68) "Accounting and Financial Reporting for Pensions" and No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68". The New Jersey Department of Treasury's Division of Pension and Benefits' releases reporting data pertaining to GASB 68. The Commission's allocation was included in the data found on the Division of Pension and Benefits' website. The "Allocations" were audited by KPMG, LLC for accuracy. The Division of Pension and Benefits further noted that:

"GASB reporting requirements solely govern financial reporting, but have no impact on State laws; therefore, the statements do not result in a change to the calculation of statutory assets, liabilities and contribution requirements for State and local employers. Accordingly, per statute, State and local systems are measured separately for the calculation of plan assets, liabilities and contribution requirements. It is important to keep in mind that this reporting requirement will not change the amount of funds local governments must budget for pension payments under existing law. The New Jersey Department of Treasury has communicated this to rating agencies. They have given no indication that GASB 68 disclosures will generally result in credit downgrades."

The Commission's "allocation" in accordance with the requirements of GASB 68 & 71 results in an accrued pension liability of \$2,469,331 which was recognized in this Report of Audit for the period ended December 31, 2018. The liability is reflected under the Long-Term Liabilities portion of the Balance Sheet

and as a deficit under the Unrestricted Net Position (detailed information regarding these reductions is outlined on page 26 of the Audited Financial Statements).

Bridges

The Commission operates five toll bridges. The Middle Thorofare Bridge is located between Cape May and Wildwood Crest in Cold Spring. The Grassy Sound Bridge is located between North Wildwood and Stone Harbor. The Townsends Inlet Bridge is located between Avalon and Sea Isle City. The Corson's Inlet Bridge is located in Strathmere at the south end of Ocean City. And the Ocean City Longport Bridge is located at the north end of Ocean City.

Toll Revenue/Structure

Tolls at the five bridges are collected in only one direction with the opposite side being toll free.

The following chart depicts the classes of tolls for one-way toll bridges.

Class 2. Passanger cars, pick up trucks, school buses, motorcycles	\$	1.50
Class 2. using discount tickets \$60.00/50 Tickets	1 ticket/crossing	
Class 2. with one axle trailer	cash or two discount tickets	2.25
Class 2. with two axle trailer	cash or three discount tickets	3.00
Class 2. with three or more axle trailer	cash or four discount tickets	3.75
Class 2D. Two axle six tire trucks and buses		3.75
Class 2D. with one axle trailer		6.00
Class 2D. with two axle trailer		8.25
Class 2D. with three or more axle trailer		10.50
Class 3. Three axle trucks		2.25
Class 4. Four axle vehicles		3.00
Class 5. Five axle vehicles		3.75
Class 6. Six axle vehicles		10.50

Each year, the Grassy Sound Bridge will be closed for toll collection from about October 15 and will reopen to collect tolls around May 15. Closing Grassy Sound Bridge to toll collection has reduced operating expenses. It has also been a cost savings to reduce the hours of toll collection at several bridges during the winter.

One-way tolls have led to a reduction in operating costs and reduced the number of employees required. The second bridge to use a "one-way" toll is Middle Thorofare, beginning on May 15, 2003, which again reduced the need for extra employees and reduced expenses. It has also become easier and more convenient for the motoring public to pass through a tollbooth plaza without stopping to pay the toll when traveling in the opposite direction.

{This space intentionally left blank}

The following chart shows toll revenue for the years ended December 31, 2018, 2017 and 2016 by Bridge:

<u>Bridge</u>	<u>Year Ended Dec. 31, 2018</u>	<u>Year Ended Dec. 31, 2017</u>	<u>Year Ended Dec. 31, 2016</u>
Middle Thorofare	\$ 841,335.33	\$ 848,654.45	\$ 828,715.05
Grassy Sound	240,282.95	264,315.15	264,912.70
Townsend's Inlet	364,721.06	380,846.29	511,234.16
Corsons Inlet	380,124.54	446,315.52	430,542.42
Ocean City Longport	784,462.75	809,264.22	839,112.20
Office Ticket Sales	44,576.81	13,747.75	6,406.35
Miscellaneous	-	8,416.24	9,111.08
Total Toll Revenue	<u><u>\$ 2,655,503.44</u></u>	<u><u>\$ 2,771,559.62</u></u>	<u><u>\$ 2,890,033.96</u></u>

Traffic for the Commission's bridges for the year ended December 31, 2018, 2017 and 2016 is as follows.

<u>Bridge</u>	<u>Year Ended Dec. 31, 2018</u>	<u>Year Ended Dec. 31, 2017</u>	<u>Year Ended Dec. 31, 2016</u>
Middle Thorofare	597,247	*	584,468
Grassy Sound	176,395	*	181,420
Townsend's Inlet	256,079	*	330,789
Corsons Inlet	289,427	*	278,185
Ocean City Longport	<u>584,552</u>	<u>*</u>	<u>489,362</u>
Total Traffic	<u><u>1,903,700</u></u>	<u><u>-</u></u>	<u><u>1,864,224</u></u>

Due to a problem with the Commission's software program, the traffic reports generated throughout the 2017 calendar year were not complete or accurate.

Traffic is counted in only one direction, that is to say, the traffic is counted only in the direction of toll collection.

Required Financial Statements

The Basic Financial Statements of the Commission report information about the Commission using accounting methods similar to those used by private sector companies, consistent with New Jersey statutes. Specifically, the financial statements are prepared on an accrual basis in accordance with generally accepted accounting principles promulgated by GASB. Accordingly, the Commission recognizes revenues when earned, not received. Expenses are recognized when incurred, not when they are paid.

The *Comparative Statement of Net Position*, the first required statement, and *Statement of Revenues, Expenses and Changes in Net Position*, the second required statement, report information about the Commission's financial condition. The Commission's Net Position, i.e., the difference between assets and liabilities, are a measure of financial health or financial position. Over time, increases or decreases in the Commission's Net Position is one indicator of whether its financial health is improving or deteriorating. Net Position increases both when revenues exceed expenses and when the Commission's assets increase without a corresponding increase to the Commission's liabilities. It is important to point out depreciation expense's negative impact on Net Position. Depreciation decreases the Commission's Net Position even though it is a non-cash expense.

The third and final required financial statement, the *Statement of Cash Flows*, provides information about the Commission's cash receipts, cash payments, and net changes in cash resulting from operations, investing, and capital and non-capital financing activities. It also provides information regarding sources of cash, uses of cash, and the changes in the cash balance during the reporting period.

Unrestricted	(13,992,960.50)	(14,660,004.81)	(14,217,711.00)
Total Net Position	33,457,332.00	27,093,165.80	25,107,315.17
Total Liabilities and Net Position	\$ 62,578,268.77	\$ 57,832,778.94	\$ 55,794,252.53

Analysis of Net Position

The Commission's total Net Position exceeded its total assets less liabilities at the end of December 31, 2018, by \$33.4 million. The deficit in unrestricted net assets is due to the net OPEB obligation at year end. Restricted Net Position of \$92,162.32 represents bond proceeds set aside for various structural repairs and rehabilitation of Commission bridges.

Analysis of Changes in Net Position

The Commission finished the year ended December 31, 2018 with a loss from operations of \$1,235,680.23. The total operating loss includes \$1,897,646.79 in depreciation of assets. Total Net Position at December 31, 2018 is \$33,457,332.00.

Commission-Wide Expenses

Operating Appropriations (part of Total Operating Expenses) were \$2,532,192.29. A selected detailed analysis of operating expenses follows:

- Personnel salaries and expenses (including medical insurance) were \$1,970,477.45 for the year ended December 31, 2018.
- Operations and maintenance expenses were \$359,083.30 for the year ended December 31, 2018. The largest area impacting operations and maintenance expenses \$219,589.20 for insurance.
- Depreciation expense was \$1,897,646.79 for the year ended December 31, 2018.

Non-operating revenues and expenses are highlighted for the year ended December 31, 2018, as follows:

- Interest expense was \$370,606.26 for the year.
- The county reimbursement for debt service was \$1,055,606.26 for the year. The County reimbursement is directly related to the amount of debt service payments made in the year.

NOTES TO FINANCIAL STATEMENTS

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017

NOTE 1 - GENERAL

The Cape May County Bridge Commission, hereafter referred to as the "Commission," was created by resolution of the Cape May County Freeholders and adopted in 1938. The Commission is a component unit of the County of Cape May. The Commission operates five toll bridges. The Commission collects tolls from users of the bridges.

As a public body, under existing statute, the Commission is exempt from both federal and state taxes.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies:

A. Basis of Financial Statements Presentation

The financial statements of the Commission have been prepared on a full accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to enterprise funds of state and local governments. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The Commission's financial statements include the accounts of all operations of the Commission. The Commission, as a component unit of the County of Cape May, State of New Jersey, is financially accountable to the County. As set forth in Government Accounting Standards Board (GASB) 14, amended by GASB 61, financial accountability is defined as appointment of a voting majority of the organizations governing body and either the ability to impose will by the primary government or the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government. The Commission, as a component unit, issues separate financial statements from the County of Cape May. However, if the County presented its financial statements in accordance with accounting principles generally accepted in the United States of America, these financial statements would be includable with the County's on a blended basis.

The Commission has adopted GASB No. 1 through 82 and related interpretations issued through December 31, 2018. GASB requires certain terminology, format and content, as well as inclusion of management's discussion and analysis supplementary information.

All activities of the Commission are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The accounting and financial reporting treatment applied to the Commission is determined by its measurement focus. The transactions of the Commission are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the balance sheet. Net Position (i.e. total assets net of total liabilities) are segregated into "invested in capital assets"; and "restricted" and "unrestricted" components.

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017

C. Recent Accounting Pronouncements Not Yet Effective

In November 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 83, "Certain Asset Retirement Obligations". This statement is effective for fiscal periods beginning after June 15, 2018, will not have any effect on the Commission's financial reporting.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, "Fiduciary Activities". This statement is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the Commission's financial reporting.

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87 "Leases". This statement, which is effective for fiscal periods beginning after December 15, 2019, may have an effect on the Commission's financial reporting.

In March 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 88 "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements". This statement which is effective for fiscal periods beginning after June 15, 2018, may have an effect on the Commission's financial reporting.

In June 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 89, "Accounting for Interest Costs Incurred Before the End of a Construction Period". This statement, which is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the Commission's financial reporting.

In August 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 90, "Majority Equity Interest – an amendment of GASB Statement No. 14 and No. 61". This statement, which is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the Commission's financial reporting.

In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, "Conduit Debt Obligations". The statement is effective for fiscal periods beginning after December 2020, will not have any effect on the Commission's financial reporting.

D. Capital Assets

Property, plant and equipment are stated at historical cost or estimated historical cost if actual historical cost is not available.

Depreciation is determined on a straight-line basis for all plant and equipment. Depreciation is provided over the following estimated useful lives:

Bridges	45 Years
Buildings and improvements	45 Years
Machinery and equipment	6 to 20 Years

The cost and accumulated depreciation of all property, plant and equipment retired or otherwise disposed of are removed from the accounts and any resulting gain or loss is included in income.

E. Budget/Budgetary Control

An annual budget is prepared each year for the operations of the Cape May County Bridge Commission. The budget is prepared using the accrual basis of accounting. Unexpended appropriations for annually budgeted funds lapse at year-end.

F. Restricted Accounts

In accordance with the provisions of the General Bond Resolution dated December 11, 1990, as amended, the Commission has established the following cash and investment accounts for the deposit of all revenues received by the Commission in the priority of the order listed on the following page:

<u>Account</u>	<u>Amount</u>	<u>Use for Which Restricted</u>
Revenue	All Revenue received by the Commission	Transfers to various accounts described below
Operating	Operating expenses for a six-month period.	Authorized operating expenses
Bond Service	Amount needed to pay matured principal and interest	Principal and interest on all bonds
Construction Fund	Amount needed to pay the cost of the project	Cost of the project
Cost of Issuance Account	Bond Proceeds and Interest on Investments	Costs and expenses incurred in connection with the issuance of the bonds
Capitalized Interest Account	Amount needed to pay portion of capitalized interest amount and interest earned on investments	Capitalized interest for 36 months
General	Any excess remaining after all other funds have been satisfied	Can be used for any lawful purpose

G. Revenues

Revenues are recognized in the accounting period in which they are earned and become measurable.

H. Expenses

Expenses are recognized on the accrual basis and are recognized in the period incurred, if measurable.

I. Cash, Cash Equivalents and Investments

The Commission's investment practices are governed by New Jersey State Statute 40A:5-15. Statutes authorize the Commission to invest in certificates of deposit, repurchase agreements, passbooks, bankers' acceptances, and other available bank investments provided that approved securities are pledged to secure those funds on deposit in an amount equal to the amount of those funds and a maturity date not greater than 12 months from the date of purchase. In addition, the Commission can invest in direct debt securities of the United States or obligations guaranteed by the United States, bonds and other obligations of the local municipality or bonds or obligations of school districts of which the Commission is a part or within which the Commission is located unless such investments are expressly prohibited by law.

NOTE 3 - LONG-TERM DEBT

General Bond Resolution

The Cape May County Bridge Commission adopted a resolution authorizing the issuance of revenue bonds on December 11, 1990, and resolutions supplementing the general bond resolution were adopted by the Commission on February 10, 1998, April 14, 1998 and April 12, 2007.

County Guaranteed Revenue Refunding Bonds, Series 2012

\$13,460,000 County Guaranteed Revenue Refunding Bonds, dated August 8, 2012, due in annual installments through June 1, 2032 bearing interest at varying rates between 1.5% and 4.0%, payable on the first day of June and December. The balance remaining as of December 31, 2018 is \$12,170,000.

On August 8, 2012, the Commission issued \$13,460,000 principal amount of County Guaranteed Revenue Refunding Bonds, Series 2012 pursuant to the General Bond Resolution, as amended. The 2012 Revenue Refunding Bonds were issued for the purpose of providing funds to: (a) Advance refund all of the Commission's outstanding County Guaranteed Revenue Bonds, Series 2005, dated December 1, 2005, originally issued in the principal amount of \$11,865,000 maturing on June 1 in each of the years 2010 through and including 2032 on June 1, 2015 (the "Redemption Date") and (b) pay certain costs and expenses incidental to the issuance and delivery of the Series 2012 Bonds. The balance remaining as of December 31, 2018 is \$12,170,000.

The unamortized bond premium at December 31, 2018 is \$91,833.63. The unamortized deferred amount on refunding at December 31, 2018 is \$1,121,451.56. The deferred amount on refunding is amortized over 20 years, the life of the bonds, and the amount amortized for the years ended December 31, 2018 and 2017 was \$80,103.60.

The bond premium is amortized using the effective interest method, over the life of the bonds and the amount amortized for the years ended December 31, 2018 and 2017 was \$11,717.39 and \$12,156.37, respectively.

NOTE 5 - PENSION PLAN

Plan Descriptions

All eligible employees are covered by the Public Employees' Retirement System cost-sharing multiple-employer defined benefit pension plan which has been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the report can be accessed on the internet at (<http://www.state.nj.us/treasury/pensions/annrpts.shtml>).

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under provisions of N.J.S.A. 43:15A to provide retirement, death, and disability, and medical benefits to certain qualified members. The PERS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund.

Defined Contribution Retirement Program (DCRP) - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost sharing multiple employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N. J.S.A. 43:15C-1 et. seq. For the DCRP, members contribute at a uniform rate of 5.5% of their base salary. Employers are required to contribute at a set rate of 3.0% of base salary. The Commission had three employees enrolled in the Defined Contribution Retirement Program (DCRP) during the year ended December 31, 2018.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43:3B. All benefits vest after eight to ten years of service, except for medical benefits, which vest after 25 years of service. Retirement benefits for age and service are available at age 60 and, under recently enacted legislation are generally determined to be 1/55 of final average salary for each year of service credit. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years' service credit, or they may elect deferred retirement after achieving eight to ten years of service credit, in which case benefits would begin the first day of the month after the member attains normal retirement age.

Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing employers. Plan members and employer contributions may be amended by State of New Jersey legislation. PERS provides for employee contributions of 7.34% through June 30, 2018 and 7.5% thereafter of employees' annual compensation. Employers are required to contribute at an actuarially determined rate. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums.

For the Public Employees' Retirement System, the Commission contributed \$136,774.20 for the year ended December 31, 2018, \$122,660.00 for the year ended December 31, 2017, and \$162,909.26 for the year ended December 31, 2016.

NOTE 6 - PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the municipality's pension liabilities. However, due to the fact that the municipality reports on the regulatory basis of accounting, no financial statement impact will be recognized.

The following represents the municipality's pension liabilities as June 30, 2018:

Public Employees' Retirement System

The Commission has a liability of \$2,469,331 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 that was rolled forward to June 30, 2018. The Commission's proportion of the net pension liability was based on a projection of the Commission's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the Commission's proportion would be 0.01254135870%, which would be an decrease of 3.13% from its proportion measured as of June 30, 2017.

For the year ended December 31, 2018, the Commission would have recognized pension expense of \$10,159. At December 31, 2018, the Commission would report deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected & actual experience	\$ 47,091	\$ (12,733)
Changes of assumptions	406,905	(789,561)
Changes in proportion	225,598	(536,575)
Net difference between projected and actual earnings on pension plan investments		(23,162)
Total	\$ 679,594	\$ (1,362,031)

Amounts that would be reported as deferred outflows of resources and deferred inflows of resources related to pensions would be recognized in pension expense as follows:

Year ended June 30,	
2019	\$ 27,536
2020	(47,192)
2021	(302,690)
2022	(271,189)
2023	(88,902)
Total	\$ (682,437)

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate 2.25%

Salary increases:

Through 2026 1.65% - 4.15% (based on age)

Thereafter 2.65% - 5.15% (based on age)

Investment rate of return: 7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

{This space intentionally left blank}

Emerging markets equity	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%

Discount Rate

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2043 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Commission's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Commission's proportionate share of the net pension liability calculated using the discount rate of 5.66%, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.66%) or 1-percentage point higher (6.66%) than the current rate:

	1% Decrease (4.66%)	Current Discount Rate (5.66%)	1% Increase (6.66%)
Municipality's proportionate share of the net pension liability	\$ 2,968,760	\$ 2,469,331	\$ 2,050,593

Pension plan fiduciary net position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

NOTE 7 - OTHER POST-RETIREMENT BENEFITS

General Information about the Plan:

The Commission offers Other Post-Retirement Benefits (OPEB) to its employees through the State Health Benefit Local Government Retired Employees Plan (the Plan) a cost-sharing multiple employer defined benefit other postemployment benefit plan. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at:

<https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of post retirement medical coverage for employees and their dependents who:

1) retired on a disability pension;

or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;

or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;

or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Allocation Methodology:

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense, however under the Regulatory Basis of Accounting followed by the Commission these amounts are not accrued or recorded in the financial statements and the information listed in this note is for disclosure purposes only. Statewide across all member employers, the special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

funding situation, where applicable, and the nonspecial funding situation, the Collective Total OPEB liabilities for the year ended June 30, 2018 were \$6,338,578,586 and \$9,642,524,641, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's non special funding situation during the measurement period July 1, 2017 through June 30, 2018. Employer and non-employer allocation percentages have been rounded for presentation purposes.

Net OPEB Liability:

Components of Net OPEB Liability

The components of the collective net OPEB liability of the participating employers in the Plan as of June 30, 2018 is as follows:

	June 30, 2018	
	Collective Total	Proportionate Share
Total OPEB Liability	\$ 15,981,103,227	\$ 6,635,660
Plan Fiduciary Net Position	314,485,086	130,723
Net OPEB Liability	\$ 15,666,618,141	\$ 6,504,937
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	1.97%	1.97%

At June 30, 2018 the Commission's proportionate share of the Collective Net OPEB Liability was \$6,504,937. The Commission's proportion of the Collective Net OPEB Liability was 0.041521% which was a decrease from the prior year of 3.19%.

For the Year ended June 30, 2018 the Commission's Total OPEB Expense was \$253,169.

The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate 2.50%

Salary increases*:

Through 2026 1.65% to 8.98%

Thereafter 2.65% to 9.98%

* Salary increases are based on the defined benefit plan that the member is enrolled in and his or her age.

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

Certain actuarial assumptions used in the June 30, 2017 valuation were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan – the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2010 to June 30, 2013 and July 1, 2011 to June 30, 2014, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long-term trend rate after seven years. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate

The discount rate for June 30, 2018 was 3.87%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Net OPEB Liability to Changes in the Discount Rate

The following presents the Net OPEB liability as of June 30, 2018, calculated using the discount rate as disclosed above as well as what the Net OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease (2.87%)</u>	<u>Discount Rate (3.87%)</u>	<u>1% Increase (4.87%)</u>
Collective			
Net OPEB Liability	\$ 18,381,085,096	\$ 15,666,618,141	\$ 13,498,373,388
Proportionate Share			
Net OPEB Liability	\$ 7,632,011	\$ 6,504,937	\$ 5,604,660

Sensitivity of Net OPEB Liability to Changes in the Healthcare Trend Rate

The following presents the net OPEB liability as of June 30, 2018, calculated using the healthcare trend rate as disclosed above as well as what the net OPEB liability would be if it was calculated using a healthcare trend rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to retired employees' OPEB from the following sources:

	Collective Totals		Proportionate Share	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$ (3,180,882,321)	\$	\$ (1,320,734)
Changes of assumptions		(3,974,042,874)		(1,650,062)
Net difference between projected and actual earnings on OPEB plan investments	8,279,239		3,438	
Changes in proportion and differences between contributions and proportionate share of contributions	2,106,728,269	(2,106,728,269)		(1,351,604)
Total	\$ 2,115,007,508	\$ (9,261,653,464)	\$ 3,438	\$ (4,322,400)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to retired employees' OPEB will be recognized in OPEB expense as follows:

Year ended June 30,	Collective Totals	Proportionate Share
2019	\$ (1,049,390,011)	\$ (634,182.19)
2020	(1,049,390,011)	(634,182.19)
2021	(1,049,390,011)	(634,182.19)
2022	(1,050,264,681)	(634,710.78)
2023	(1,051,678,489)	(635,565.19)
Thereafter	(1,896,532,753)	(1,146,139.45)
Total	\$ (7,146,645,956)	\$ (4,318,962.00)

Detailed information about the plan's fiduciary net position is available in the separately issued OPEB financial report.

Collective OPEB Expenses reported by the State of New Jersey

The components of allocable OPEB Expense related to specific liabilities of individual employers for the year ending June 30, 2018 are as follows:

NOTE 8 - MAINTENANCE OF FACILITIES AND BRIDGES

The Cape May County Bridge Commission entered into an Interlocal Services Agreement with the County of Cape May whereby the County assumed sole responsibility for the routine maintenance of the Commission's facilities and all the remaining bridges and structures of the Commission.

NOTE 9 - CASH, CASH EQUIVALENTS AND INVESTMENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the Commission's deposits might not be recovered. Although the Commission does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. Of the Commission's bank balance of \$442,644.35 as of December 31, 2018, \$0 was uninsured and uncollateralized.

Investments

N.J.S.A. 40A:5-15.1 provides specific guidance for the allowable investment of public funds. In order to maximize liquidity, while complying with statutory requirements, the Commission utilizes the New Jersey's Asset and Rebate Management Program ("NJ/ARM") and First American Treasury Obligation Funds for investing purposes.

At December 31, 2018, the Commission had the following investments:

<u>Investment Type</u>	<u>Credit/ Quality Ratings (1)</u>	<u>Face Amount</u>	<u>Carrying Amount</u>	<u>(2) Less Than 1</u>
First American Treasury Obligation Funds Class D	AAAm	\$ 1,560,048.85	\$ 1,560,048.85	\$ 1,560,048.85
NJ/ARM - Asset & Rebate Management Program	AAAm	263,946.50	263,946.50	263,946.50
		\$ 1,823,995.35	\$ 1,823,995.35	\$ 1,823,995.35

(1) Ratings are provided where applicable to indicate associated credit risk.

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

(2) Investment maturities in years.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Commission will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Commission does not have a policy for custodial credit risk, however the State of New Jersey imposes certain investment limitations for governmental units. These requirements are disclosed in detail as part of Note 1.

Credit risk – The Commission does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Commission does not have a policy to limit interest rate risk. The Commission's investments have a maturity of less than one year.

NOTE 10 - COMPENSATED ABSENCES

The Commission accounts for compensated absences (e.g., unused vacation, sick leave) as directed by the Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

The Commission has permitted employees to accrue unused vacation and sick pay, which may be taken as time off or paid at a later date at an agreed upon rate. All vacations must be exhausted before resignation or retirement from the Commission. Vacation may accrue for a period not to exceed two (2) years.

In the Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

NOTE 11 - POST-RETIREMENT HEALTH BENEFITS PROGRAM

Plan Description

The Commission contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et. seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. The Commission authorized participation in the SHBP's post-retirement benefit program through resolution.

All Commission retirees with at least 25 years of service or who retire upon or after the age of 62 with 15 or more years of service as regular full-time employees shall receive 100% of the cost of health insurance premiums until death.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at:
<http://www.state.nj.us/treasury/pension/gasb-43-sept2008.pdf>.

The Commission utilizes the New Jersey State Health Benefits Plan for Health Insurance, however, they also provide post-retirement benefits for vision, dental, and life insurance that are not included as a part of the State Health Benefits Plan. These benefits are budgeted by the Commission annually on a "pay as you go basis" and included in group insurance.

In accordance with GASB 75 and the State of New Jersey, the Commission is required to obtain an actuarial valuation of the liability for providing these benefits. The actuary has decided to use the entry age actuarial cost method and the level percentage of payroll amortization method. The actuarial valuation report was based on 35 total participants including 24 retirees. The actuarial valuation date is December 31, 2018. The actuarial determined valuation of these benefits has been reviewed and will be reviewed bi-annually for the purpose of estimating the present value of future benefits for active and retired employees and their dependents as required by GASB 45.

Annual OPEB Cost and Net OPEB Obligation

The Commission's annual OPEB cost represents the accrued cost for post-employment benefits under GASB 75. The cumulative difference between the annual OPEB cost and the benefits paid during a year will result in a net OPEB obligation. The annual OPEB cost is equal to the annual required contribution (ARC) less adjustment if a net OPEB obligation exists. The ARC is equal to the normal cost and amortization of the Unfunded Actuarial Accrued Liability (UAAL) plus interest.

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates and assumptions about the probability of occurrences of events far into the future, including future employment, mortality and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

In the December 31, 2018 Actuarial Valuation Report, the Entry Age actuarial cost method was used for all participants. The actuarial assumptions used to project future costs included a discount rate of 3.64%. In addition, the unfunded actuarial accrued liability is being amortized over the maximum acceptable period of 30 years and is calculated assuming a level dollar amount.

Other Post-employment Benefit Costs and Obligations

The following reflects the components of the 2018 annual OPEB Costs, amounts paid, and changes to the net accrued OPEB obligation for the year ended December 31, 2018, based on the December 31, 2017 actuarial valuation update report and actual OPEB payments made or accrued during the year ended December 31, 2017:

Funding Status and Progress

The State of New Jersey has not provided statutory Commission that would allow the OPEB costs to be funded at this time.

Required Supplementary Information:

		December 31, 2018
Actuarial Accrued Liability (AAL)		1,734,629
Total Unfunded AAL (UAAL)	\$	1,734,629
Funded ratio		0.00%

Funding Policy

Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Commission on a monthly basis.

The Commission contributions to SHBP for the year ended December 31, 2018, was \$350,170.36, which equaled the required contributions for the period. There were 27 retired participants eligible at December 31, 2018.

NOTE 12 - RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

CAPE MAY COUNTY BRIDGE COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

Bridge Damage Insurance

Due to the threefold increase in insurance coverage of the bridges, the Commission has canceled the physical damage and use and occupancy insurance on the bridges because, in the judgment of the Commission, it is not reasonably obtainable. The Commission maintains with responsible insurers all insurance required.

Property and Liability insurance

The Commission maintains commercial insurance coverage for property, liability and surety bonds.

NOTE 13 - DEFERRED COMPENSATION

The Commission offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plan, which is administered by the Valic Retirement Services Company, permits participants to defer a portion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, retirement, death or unforeseeable emergency.

NOTE 14 - LITIGATION

From time to time, the Commission is a defendant or co-defendant in various lawsuits arising out of normal operations of the Commission. The Commission's deductible for personal injury claims is currently \$50,000.00 per claimant. If the Commission is not successful in defending the various legal proceedings and has to pay the maximum deductible, the payments would be material to the financial statements.

NOTE 15 - DUE TO IRS – ARBITRAGE REBATE

Periodic arbitrage calculations have been made for the various bond issues and the Commission has concluded that no reserve is required at December 31, 2018. The reserves will be revised if future calculations warrant a revision.

NOTE 16 - SHARED SERVICE AGREEMENT

A shared services agreement dated December 8, 2009, between the Cape May County Bridge Commission and the County of Cape May, whereby the County of Cape May will pay the debt expenses on any Commission Bonds currently outstanding or additional Bonds issued in the future. The Cape May County Bridge Commission will continue to operate and maintain the County Bridge Facilities that are currently operated by the Commission or which, in the future, become its responsibility to so operate.

NOTE 17 – RESTATEMENT OF PRIOR BALANCE

Net position has been restated as required by the implementation of GASB 75, as discussed in Note 7 above.

	2017	2016
Beginning net position as previously reported at December 31	\$ 38,077,838.80	35,858,546.17
Prior period adjustment – Implementation of GASB 75

FOR THE YEARS ENDED DECEMBER 31, 2018 and 2017
(CONTINUED)

NOTE 18 - SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred from December 31, 2018 through August 15, 2019, the date that the financial statements were issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

INDEPENDENT AUDITOR'S REPORT

Commission Members
Cape May County Bridge Commission
Cape May Court House, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Cape May County Bridge Commission, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated August 15, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
