Re: U.S. Department of Transportation
Multimodal Project Discretionary Grant (MPDG) Opportunity
Corsons Inlet Bridge Rehabilitation and Roadway Safety Improvements Project
Upper Township, NJ Structure No. 3100-002

Dear Secretary Buttigieg:

The Cape May County Bridge Commission owns and operates the Corsons Inlet Bridge that connects the barrier islands of Sea Isle City, Strathmere, and Ocean City, NJ. This bridge is a vital link that supports the large tourist population as well as being an important evacuation route for the islands. The referenced project is necessary to address Priority 1 repairs that were identified in our biennial inspections and to ensure that the bridge remains in a good state of repair for the local communities. The Commission has committed an amount of \$150,000 of current revenues towards the construction of the project. Additional funding will likely become available in future fiscal years due to recent toll increases that took effect in March 2022.

The Commission appreciates your thoughtful consideration of the Multimodal Project Discretionary Grant (MPDG) Opportunity which will help improve the safety of the Corsons Inlet Bridge and allow for economic success of the local region.

Very truly yours,

Karen Coughlin
Executive Director

cc: Carol Brand, Chairman
